

Savant Touch Surface Kit

Figure 1: Touch Surface with photo-realistic floating service icons

The first Apple®-based surface product, the Touch Surface brings the converged functionality and capabilities of Savant's touch interfaces to a surface technology that is practical on the one hand, entertaining and exciting to use on the other. User-interactive multimedia features include integration and interaction with iTunes® multimedia content, digital games, and many more entertaining digital devices on the horizon.

Touch Surface is an entertaining and dynamic graphical user interface (GUI), automation and control center, and full color HD LCD touch panel. Simply tap the screens to access a multitude of control and automation services and subsystems including: multizone audio and video, lighting, climate, IP cameras, security systems and more.

Custom Applications and Enclosures

Touch Surface offers customizable dynamic screens, dedicated push buttons and icons with multiple functions, and a full range of other input options readily customized through RacePoint Blueprint™.

Touch Surface enclosures can be tailored to suit the needs of any lifestyle (wood, granite, marble, etc.) by ordering the Touch Surface Kit (CTK-1000). The Touch Surface Kit allow interior designers to create their own enclosure and select their own materials to match the ambience and décor.

BENEFITS AND FEATURES

- ▼ Touch screens readily created using RacePoint Blueprint™
- ▼ Customizable Hot Launch Buttons
- ▼ Custom tailor to suit any décor by using Touch Surface Kit
- ▼ Additional Applications
 - Dealer Showcase
 - Corporate Training
 - Corporate Boardrooms
 - Point of Information
 - Tradeshows
 - Education
 - Game Rooms
 - Sports Bars
 - Hotels
- ▼ Configured and customized using RacePoint Blueprint™ Design Tool

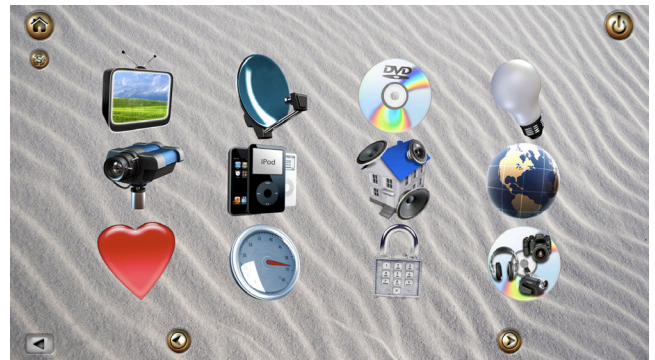

Themes and Motifs

Savant provides a palette of themes and motifs to create and customize spectacular, and interactive touch interfaces (see Figures below). In addition, all these icons can be modified by dealers and integrators alike by using Adobe® Photoshop®, the world's premier digital graphics editing application.

Configure and readily customize the *Touch Surface* interface using Savant's common design tool—RacePoint Blueprint™. With limitless flexibility and creativity, Savant empowers you to meet the stringent needs, personal preferences, and demands of your customers and installations.

Library of Photo-realistic Service Icons

Interactive and Exciting Applications

Touch Surface is the perfect solution for dealers to showcase exciting, entertaining and interactive vignettes. In addition, every audio/video service, and subsystem control element of the home, corporate training room, business boardroom or executive lounge can be accessed with this innovative and intuitive touch interface.

As far as an interactive and entertaining user interface goes, it couldn't be any easier. Imagine your album covers vividly displayed on a 40-inch HD display and tapping one of them to instantly play the music. The *Touch Surface* allows you to view your music library on a vivid large color display and simply touch the album to play it.

Take a leap into the future. Control your entire home or environment with well designed, entertaining and innovative touch interfaces navigated with *Touch Surface*.
